

Utah Valley University

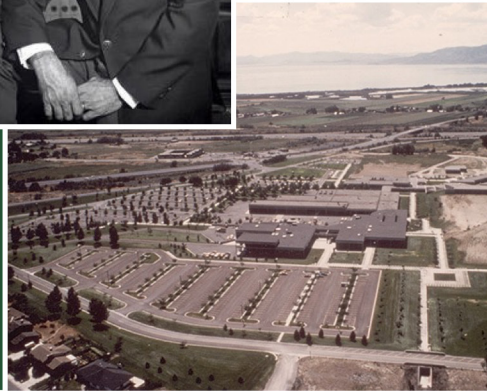

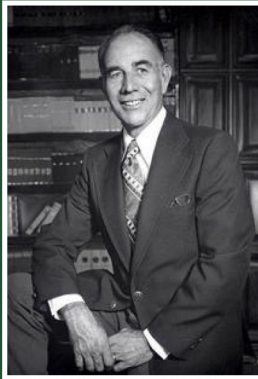

Campus Master Plan

October 2016

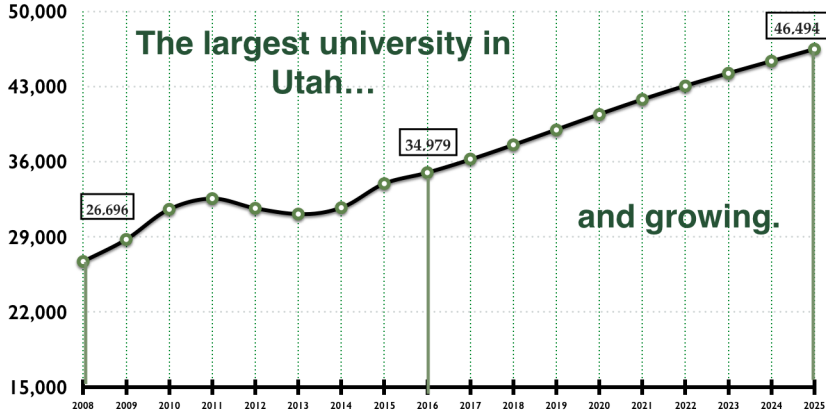

Background

- ▶ We are in a “Wilson Sorensen” moment...next 75 years!
- ▶ Hosted a series of campus and community forums
- ▶ Balancing many competing and complimentary interests

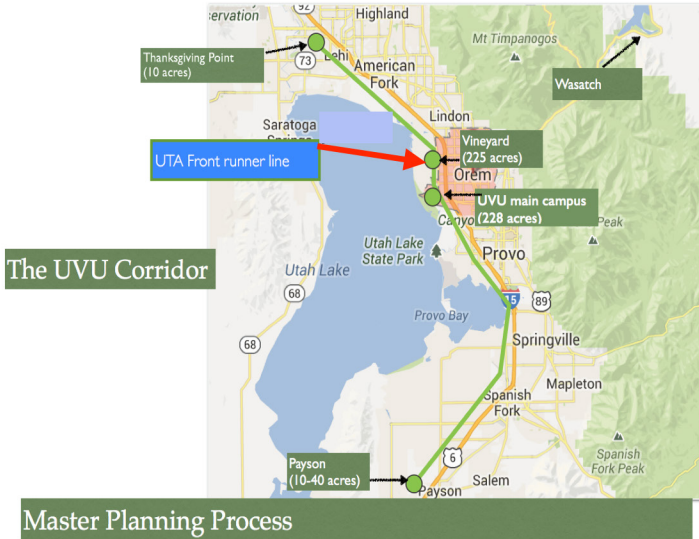

Students Voting with their Feet

UVU Growth History & Projections

Original Plan for Meeting Utah Valley Growth

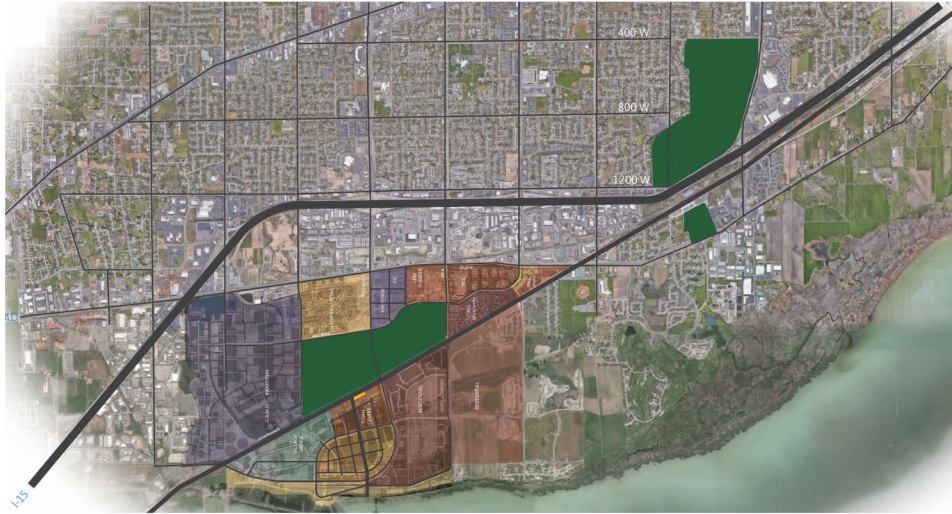

Satellite Campuses

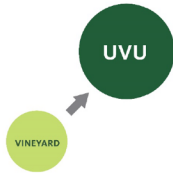

Satellite Campuses

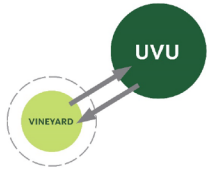

New Vineyard Opportunity

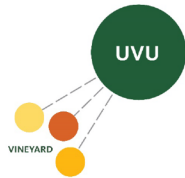

Vineyard Campus

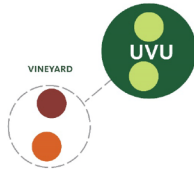

1. Feeder Campus: Develop the new Vineyard Campus with a community college/basic education campus that will feed into the Main Campus which will focus on four-year baccalaureate and post-graduate education.

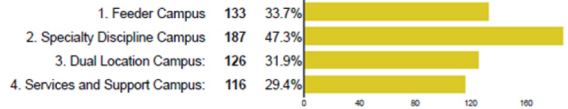

3. Dual Location Campus: Develop the new Vineyard Campus as an extension of the current campus. Utilize shuttles, mass transit and other means to connect the two campuses physically and virtually.

2. Specialty Discipline Satellite Campus: Develop the new Vineyard Campus around one or two core programs or disciplines. IE medical campus, tech campus, etc.

4. Services and Support Campus: Relocate non-academic, administrative support services and possibly even parking facilities currently located within the Main Campus to the Vineyard Campus. This will free up space within the current campus for development of new academic buildings.

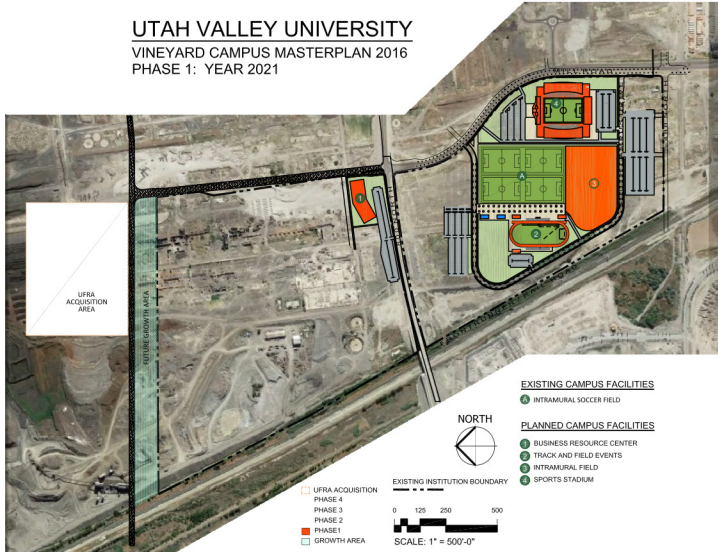

GUIDING PRINCIPLES

- ▶ Stay true to UVU's mission
- ▶ Serious: state of the art facilities
- ▶ Inclusive: sense of community and connectivity
- ▶ Engaged: dynamic, experiential learning space
- ▶ Student Success: meet student needs, interests, & growth
- ▶ Maintain academic integrity/unity of main campus
- ▶ Be a good/communicating neighbor
- ▶ Leverage mass-transit and foster sustainability
- ▶ Develop a phased approach for the long-term
